How to Upgrade

1. Click on product update tool.

2. Choose TF and click "Ok".

3. Turn off the device, take out the memory card(as shown in figure②). Insert the memory card into card reader and connect with computer.

4. The product upgrade tool will recognize the memory card automatically(only if the memory card has already saved the serial number and registration number before. If it is a blank memory card, please follow "Upgrade for blank memory card" on page 8). Click "Device Upgrade".
